

## Virtual Color Wheel Conversion Chart

The Chauvet Professional Virtual Color Wheel exists as a static, stand-alone color mode and as a DMX channel in certain personalities of all Ovation Series fixtures that feature color mixing. We have labeled these colors using our own numbering system, and provide the below cross-reference sheet for your convenience. This chart is for comparison purposes only and is not a representation that our pre-mixed colors match any of the gel colors listed. You may adjust the overall intensity of the Ovation fixture in order to more closely replicate colors you are familiar with.

Chauvet Color	Rosco Color	Gam Color	Lee Color	Apollo Color
C3050 - Md Yellow	4590 - CalColor 90 Yellow	470x2 - Pale Gold	010 - Medium Yellow	6300 - Neon Yellow
